Madam,

Sub: CWR-M&E of TNIAMP- API of PPIS-IP address Request-Reg

- Ref: 1. Lr.No. MDPU /F185 (B)/ TNIAMP-DSS Components/2024/Dt 30.04.2024
2. Gmail dated - Anna University - CWR - M&E of TN IAMP - PPIS - API - Decision Support System dated 10.04.2024
3. Lr.No. MDPU /F185 (B)/ TNIAMP-DSS Components/2024/Dt 30.04.2024.
4. Gmail FAI dated 05.05.2024 Minutes of Meeting (MoM) - Data Access Request for Analytical in DSS-WRD (TNIAMP).
5. Gmail CWR dated 07.05.2024- M&E of TN IAMP - PPIS - API - Decision Support System dated 10.04.2024
6. Gmail FAI 09.05.2024 Minutes of Meeting (MoM) - Data Access Request for Analytical in DSS-WRD (TNIAMP).
7. Lr.No. MDPU /F185 (B)/ TNIAMP-DSS Components/2024/Dt 13.05.2024

The design and development of the Decision Support System (DSS) are currently underway with the objective of improving water management, agricultural productivity, and profitability with strengthening resilience to climate variability in the selected sub-basins of the Tamil Nadu Irrigated Agriculture Modernization Project (TNIAMP). It has become evident that sharing the PPIS - API data is indispensable for the successful implementation of the TNIAMP-DSS.

As indicated in the aforementioned reference, several meetings have been scheduled to initiate the subsequent steps in the project's DSS development. As per the reference 6th cited the DSS team has identified 75 departmental reports with folders that are mutually relevant for both (PPIS & DSS) applications and requested access for the Read only access to 75 tables, File server access to download report attachments and Firewall permission to access the DB server from outside the CWR premises. In accordance with the reference 7th cited, the CWR-PPIS team has expressed their readiness to share the required access. However, for security and policy purposes, they require the specific IP address from which the access will be requested. The necessary details are outlined in the attached annexure.

Kindly make the necessary arrangements to proceed further. We appreciate your prompt attention to this matter to ensure the seamless progress of the DSS development project.

Executive Engineer (M&E) 17/05/24

Sub: Anna University - CWR - M & E of TNIAMP - PPIS - API Sharing - Requesting Specific IP Address - Reg.

Ref: Lr.No. MDPU IF1B5 (B)/ TNIAMP-DSS Components/2024/Idt 13.05.2024

Sir,

As per the reference letter cited we are ready to share the database access to the TNIAMP DSS Team. For that we need to ensure secure access and comply with our organization's security policies, we kindly request the specific IP address from which the access is required that needs to be whitelisted for access to the database. Having this information will enable us to configure our systems accurately and establish a secure connection to the database server.

Thanking you,

Yours Sincerely,

Dr. Madhavi Ganesan

Director CWR and
Team Leader, TNIAM Project
