Agenda:
 1. Application Programming Interface (API) Development Requirements for Analytical in DSS
2. Data Sharing Agreement between IWS/MDPU and CWRD

The following were discussed in Meeting

- We have identified the 75 tables & few folders in the file server for the attachment. So access to the below are requested:

   a. 75 Tables read only access
   b. File server access to download the report attachments
   c. Firewall permission to access the database server outside the CWR premises.

- CWR M&E is expecting consent from MDPU as MDPU is the owner for the data.
- Both CWR & FAI team will discuss with MDPU for the consent.
- Once the access is established, FAI will run a scheduled job that will copy the data in PPIS to DSS system periodically.
